Safety, Strength & Dependability

VSI's Herculite Class M panel is the thinnest modular

vault panel on the market today.

Why choose Herculite? Simple — Herculite offers all the dependability you have come to know from Vault Structures' modular vault panels, combined with ultra high performance concrete in a lighter, thinner model.

Security has just become thinner, lighter and stronger all at the same time. Herculite is the future of modular vault panels and it is available *now* from Vault Structures, Inc. Call now for your quote!

TOP FEATURES

- U. L. Rated :Class M, Class I, Class II, Class III
- Panels are thinner than the Aegvs Series & Vision Series
- Panels weigh less than Aegvs Series panels
- Panels are made using Ultra High Performance Concrete.
